

Emanuel Bejerea

Junior Web Developer

MY EDUCATION

Faculty of Automatics
and Computer Science

Technical University
of Cluj-Napoca

Graduating in 2026

MY DESCRIPTION

I'm a curious and open-minded student passionate about technology and creativity. I thrive in diverse teams, learn from feedback, and believe great projects come from collaboration and openness.

WORK EXPERIENCE

Marketing Specialist

1A Smart Land SOLUTIONS SRL

2023-2025

Created visual content for social media using CapCut and Photoshop

Learned how to adapt visuals to different audiences and platforms

PROJECTS

GameBox

Created GameBox, a responsive gaming platform with user-friendly navigation and dynamic content management. (Check the [linktr.ee](https://linktr.ee/Manu8733) for full demo)

HomeRun

Developed HomeRun, an intuitive platform for managing smart home devices, with focus on seamless user experience and efficiency.

ACHIEVEMENT

- Completed personal web development projects (GameBox & HomeRun), demonstrating strong foundation in modern technologies and UI/UX principles.
- Continuously learning and applying new skills in web and automation development.
- Built a portfolio showcasing practical applications of learned concepts.
